

## Getting Started Using eBooks on a Kindle Fire (nonHD) with Axis 360

The following instructions will guide you through the process of downloading Blio onto your Kindle Fire (nonHD) to begin reading ebooks available from your library and Axis 360.

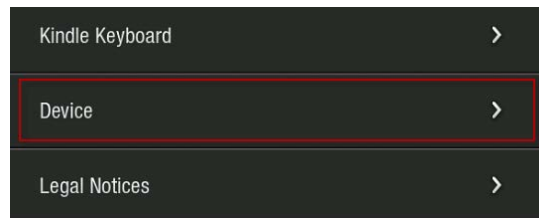

To begin, go to the device's Home screen (click on the Home button in the lower left).  
In the upper right of the Home screen, click on the settings icon (a star burst or circular gear).

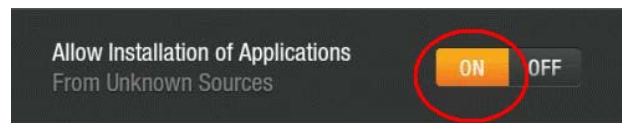

On the following screen, select "More."

From the options list provided, select "Device." (You may need to scroll through the screen to find "Device".)

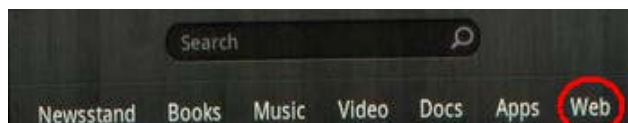

Next, select "ON" for the option to "Allow Installation of Applications for Unknown Sources."

NOTE: You may wish to set this option back to **OFF** when finished.

---

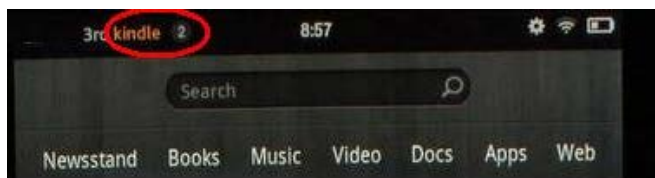

Now it is time to download the Blio app.  
Go to the Home screen. Then click on the tab at the top right for "web."

Type in the following URL: <http://bits.blioreader.com/update>

Then choose the link named [KNFB Blio 3.0.3 PROD.apk](#). (The links for 2.5.1 and 3.0.1 are previous versions.)

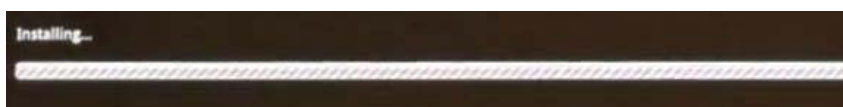

Next click on the number displayed in the upper left corner of the Kindle Fire. This number indicates that the app has been queued for installation.

Once the [KNFB Blio 3.0.3 PROD.apk](#) download is complete, click on "[KNFB Blio 3.0.3 PROD.apk](#) Download Complete."

On the following screen, click on the word "Install" in the grey area under the permissions.

You should then see a line that says "Installing."

When "Install Complete" displays, click "Done" at the bottom of the screen.

Return to the device's Home screen; the Blio icon has been added to your App carousel at the top. Touching this icon will start up the app. Or you may select the Apps option at the top of the Fire screen and you will see Blio available.

Launch Blio app.

Log in with your Blio ID.

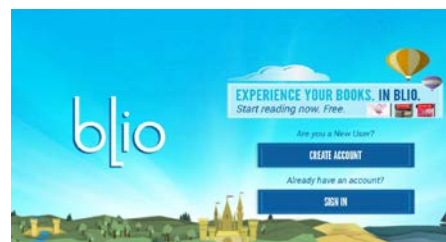

Blio will synch with your Book Shelf and bring in purchased titles and borrowed items from Axis 360.

*Don't have a Blio ID (or account) yet?*

Then when you launch Blio select Create an Account and choose a username (a valid email) and password. (Please note that the password must be between 6-30 characters and must contain a capital letter, a lowercase letter, and a number.)

Now, Sign in to Blio.

Blio will synch with your Book Shelf and bring in purchased titles and borrowed items from Axis 360.

If it does not automatically sync, then go to MY PURCHASES at the bottom of the screen. You should then see your title(s). Click it/them to download, if they do not begin downloading right away.
